Do you love to doodle, be creative, problem solve or get messy? Then an Art Major is for you! Art majors create works in many different media. You will have the opportunity to make music videos, paint murals, design our yearbook, wheel throw a vase and much more. As an Art Major you will learn to create and view artwork with a trained eye. You will use design principles to compose digital, 2D and 3D artworks by learning to tap into the deep recesses of your heart. This major will allow you opportunities to strengthen your portfolio through independent projects, preparing you for life as a college Art Major or professional artist.
